

Ever wonder where Mother Nature lived?

Poplar Grove is nothing short of a natural wonderland. The 6,000 acres of wooded lands, canals and marshes are alive with thousands of species of trees, flowers, birds, fish and animals.

As a community, we are dedicated to preserving this habitat. That's why we've placed over 3,000 acres into a conservation easement through Ducks Unlimited.

Now you have the opportunity to take part in this preservation, too. Finally, you can live in a natural, peaceful surrounding without sacrificing the convenience or luxury of Charleston.
